Leaf printing

Make beautiful pictures with leaves collected from the park or garden

- You will need:
- Leaves
 - Paint
 - Paint brush
 - Paper
 - Paint tray
 - Apron
 - Tablecloth

Choose some leaves with very big veins. Old, big leaves work best.

Use a paint brush to paint the veiny side of your leaf

Cover it all over with paint- right to the edge of the leaf.

Put the leaf face down on your paper and rub the back to get a good print.

Carefully lift your leaf and reveal your print.

Use different colours of paint and different shaped and sized leaves to make your picture.
