

A walk on the wild side

Nature Day at home

all
ages

Flower crown

Be king or queen of the wild things with one of these beautiful crowns.

You will need:
Some willow or covered wire to make circlet
Wire
Wire cutters
Leaves and flowers
Secateurs
An adult

Ask an adult to help you cut two long pieces of willow

Carefully bend it into a circle and secure with wire- you can leave the leaves on if you like. (An adult needs to help with cutting using the wire cutters and secateurs) Remember to test that it fits your head and loosen/ tighten accordingly

If you don't have access to willow, covered wire works just as well. Twist into a circle the size of your head and secure making sure no ends of wire will stick into your head. The circle should be made of at least 2 loops as this is easier to attach your flowers to.

Wrap foliage around first and secure with wire.

Now thread your flower stalks in and out until you are happy with the effect.

Here's some other examples
Now it's ready to wear.
