

6+

Pinwheel

You will need:

Scissors
split pin
Felt tips/ crayons
A piece of square paper or
thin card
A pencil
A ruler
A straw
Single hole punch

Make a wonderful windmill
for the top of sandcastles or
to decorate your garden.

Decorate your square of paper.
Fold your square corner to corner
to mark the diagonals of your
paper

Hole punch each alternate corner

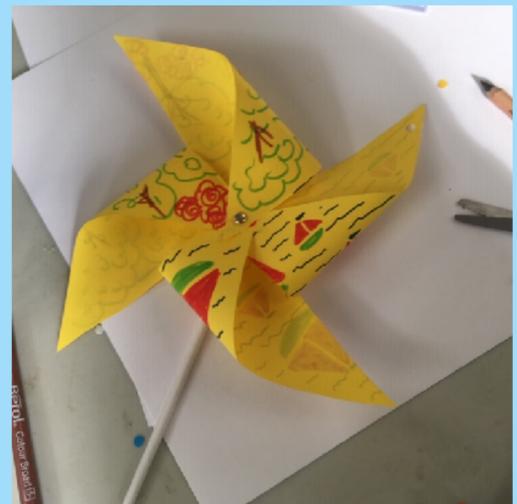

Mark out a ruler width from the
centre of your square on each fold
and cut carefully with scissors

Take a paper straw and cut 1 cm
off the end (keep this safe)
Squash the end of your straw &
hole punch it, making sure the
hole is in the middle

Mark your central point on the un-
patterned side of your square.
Fold over all the hole punched
corners to where you marked
your central point and push a
split pin through.

On the back push on your small
piece of straw and then the straw
with the hole you made and split
the pin to secure.
