

Barnsley Museums Makes: Pine Cone Feeder

Have you been to Worsbrough Mill & Country Park to spot the birds on our 'Winter Bird Walk' trail yet?

Look after the winter birds which visit your garden or nearby outside space, by creating your own bird feeder.

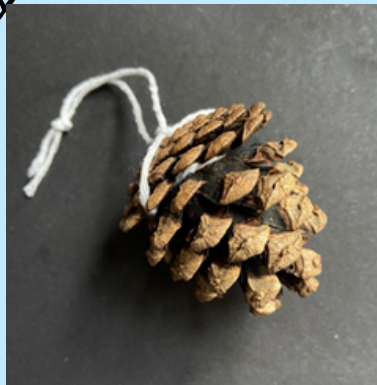

You will need:

- Wild bird seed
- Mealworms, raisins, grated cheese (all optional)
- Unsalted peanut butter
- Pine cones
- String or yarn
- Bowl
- Lolly stick

For more activities visit:
www.barnsley-museums.com/february-half-term

Wrap a piece of string or yarn around your pine cone a couple of times.

Tie firmly at the top and make a loop for hanging.

Mix your wild bird seed and other chosen dry ingredients, together in a bowl.

Use the lolly stick to spread the peanut butter over the pine cone. Make sure you push it into all the little gaps.

Next, roll your pine cone into your seed mixture, making sure it is all coated.

Hang your finished feeder in a tree, bush or shrub and wait for the birds to arrive!
