

Make your WOW! Playdough Owl

Make your own, child safe play dough to create your own owl friends and other models.

Place the flour into the bowl, add the salt, the cream of tartar, water, oil and mix well.

(THE GROWN-UP BIT) Place the ingredients in a pan and heat gently on the hob, keep stirring until it comes together as a dough. Alternatively use the microwave and place in a microwavable bowl, stir frequently. (Take care – it gets really hot!!)

Turn out the dough onto work top and leave to cool a while. Keep kneading the dough while it is warm.

Choose your colours. Split the dough between the bags and add your colourings. Squash your colourings into your dough until the white dough is coloured.

GET CREATIVE EVERYONE! Use the different coloured doughs and decorations to make your owls.

You will need:

$\frac{3}{4}$ cup of Salt
2 tablespoons Vegetable oil
2 cups Plain flour
4 teaspoons Cream of tartar
Food Colourings (red and green; mix in small quantities to make different browns)

Equipment

Large Bowl

Wooden spoon

Decorations (we used feathers and googly eyes)

Craft tool or utensil to make markings

Plastic zippy bags (for mixing your colours of dough) or plastic gloves for your hands
