

## Make your WOW! Towel Owl

Can you make your own Towel Owl- like you could see in Walter's tree?

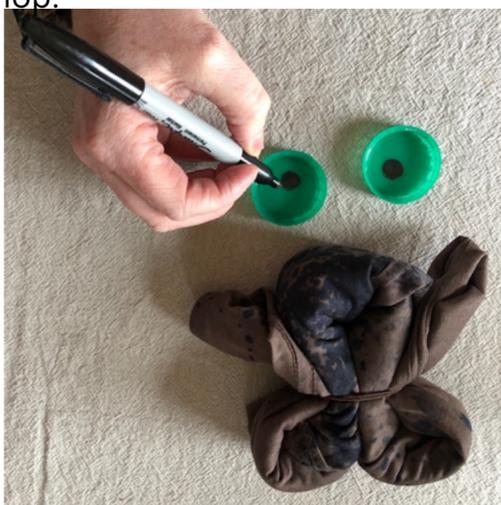

Remember to share your pics on The Cooper Gallery digital channels. We'd love to see them.

Take your square piece of fabric and turn to create a diamond shape. Roll from corner to corner from the bottom to the top.

Fold the fabric in half length ways. Then fold the ends down on either side. Secure with elastic band, hair-bobble or string.

Using the bottle tops draw in the centre of the eyes. Attach the eyes using sticky tape.

Cut out a beak shape from paper and attach using sticky tape.

Your owl is finished. T-wit T-whooh!  
Why not make a friend for your owl?

You will need:

A large facecloth or a tea-towel/T-shirt/piece of fabric. Square shape works best.

Elastic band/ hair bobble/string

2 Milk bottle tops or coins/buttons

Paper or card/foam

Felt tip pen

Double sided sticky tape
